

Professional Profile

Frontend developer with hands-on experience building responsive, mobile-first web interfaces using HTML, CSS, JavaScript, and Bootstrap. Comfortable with cross-browser debugging and Git-based workflows. Background in freelance client communication and UI/graphic design.

Where I've Worked

Frontend Web Developer | MagentoSoftTech

May 2025 – Jul 2025

- Developed responsive web interfaces using HTML, CSS, and JavaScript.
- Built mobile-first layouts using Media Queries, Flexbox, and CSS Grid.
- Managed version control and collaboration using Git and GitHub.
- Debugged and tested layouts across browsers using DevTools.
- Implemented reusable UI components with CSS animations and transitions.

Freelance Bidder | WebExert

Nov 2024 – Mar 2025

- Wrote project proposals and communicated directly with international clients.
- Gathered client requirements and translated them into actionable development tasks.

Graphic Designer | Freelance (Remote)

2022 – Present

- Designed branding materials including posters, CVs, thumbnails, and digital banners using Canva and Adobe tools.

Projects

- Tranza Elegance (E-commerce landing page):** Responsive online shopping interface.
- Muqarnas (Real Estate landing page):** Responsive property-listing web interface for a client.
- Personal Portfolio Website:** Showcases design and development projects with client testimonials.
- Crypto Stock Exchange Simulator (C++):** Console-based simulation of basic crypto market functions.
- Blood Donation Web Portal (UI/UX):** UX and UI concept for a donor-recipient matching platform.
